

HDMI Splitter Board

CIB-HDMI-01

- HDMI Video Pass-through
- No Latency
- Direct Connection to Z3 Technology's FV4K and Q603 Video Encoders
- Small Form Factor

The CIB-HDMI-01 is designed to enable HDMI splitting for Sony 4K and HDMI cameras. The CIB-HDMI-01 takes the raw camera feed through the Camera KEL connector and uses the Second KEL connector to feed the encoder to provide a compressed output. The HDMI 1.4a is a no latency pass-through directly from the Camera.
